Capabilities: Our clinic provides preventative medical care including vaccinations, de-worming, and yearly physical examinations. We also provide health certificates and sick call appointments. Medical and surgical services include routine elective surgery, spays, neuters, prophylactic (dentals), general surgery, and isoflurane anesthesia. Our facilities host two treatment rooms and one surgical suite. We do not offer X-Rays, and are limited in our in-house laboratory procedures.

Access: Patients are seen by appointment only. Occasionally we can offer walk ins, depending on our schedule. Please call ahead to verify that we have space available for you. We perform surgeries on Monday, Tuesday, and Wednesday AM, and our appointment schedule resumes after lunch on those days. On Thursday and Friday, we see appointments in the morning and afternoon. After hours emergencies will be referred to an off-post facility.

Referrals: Patients requiring X-Rays will be referred to the Heidelberg Vet Clinic, or to an off-post facility. Specialists in internal medicine, surgery and ophthalmology are available in the civilian sector.

Emergency Care: Emergencies are seen during normal operating hours if we can facilitate the injury. If the care is out of our means, we will refer you to an off post facility. Please call ahead with an emergency. We have a referral list posted outside our clinic, and the names are also listed below.
